

Monterey Conservation Commission

April 15, 1999.

Members Present: Ray Tryon, Chris Blair, Richard Nault, and Deborah Mielke.

8:30am. Continuation of Public Meeting for Joanne B. Simms.

Mr. & Mrs. Simms present.

Concern expressed regarding soil erosion from the steep hill where it meets the culvert. Bank needs to be stabilized due to removal of logs. Mention made of two culverts that drain from State Forest. Possibility of moving roadway 400' further away from existing site. Would need to determine if there is any impact on possible wetlands in that area.

Recommendation made to have present design of work to be done. Approval given to finish work already started to prevent further erosion of bank. Bank to be seeded and mulched.

Continuation of this public meeting will be held at the regularly scheduled meeting on May 10, 1999, at 7pm. Plans to be presented at that time.

Meeting adjourned 9:15am.
